

City of Hondo Vegetation Program begins January 10, 2018

In our continuing efforts to provide the most reliable electric service possible, the City of Hondo Electric Division has contracted with Arbor Experts to trim trees away from power lines in a portion of town over the next few weeks.

Arbor Experts will be trimming trees from Hwy 90, south approximately 3-4 streets, and in some areas as far south as 30th street.

The trimming is designed to prevent trees from growing back into the power lines for a minimum of five years and generally involves about a 10 foot cut back from the lines.

Arbor Experts utilizes industry accepted techniques to help ensure the health of all trees trimmed.

Questions or concerns regarding this project should be directed to: David Baker, Electric Superintendent, at 830-741-5077.
