Economic Recognition

The Texas Economic Development Council (TEDC) announced the recipients of its annual Economic Excellence Recognition program for 2019 and for the second consecutive year the City of Hondo Economic Development Corporation received the award. The Economic Excellence Recognition program provides recognition to economic development organizations that meet a desired threshold of professionalism. Recipients qualify for recognition based on training taken by their governing board/council as well as the economic development director and professional staff. Certifications, professional memberships and activities, and organizational effectiveness of the economic development staff also contribute to the standards for qualification. The Texas Economic Development Council, established in 1961, is an Austin-based, statewide, non-profit professional association, dedicated to the development of economic and employment opportunities in Texas. The TEDC provides information, educational and legislative services to more than 850 members. Our objective is to support the economic growth of Texas and develop strategies that promote a positive business climate in the state.
